Software Engineering: Sprint 2

USER FLOW

Our website design is based on the world population. It's for students who wants to enhance their knowledge or make the reports on it. The main role is anyone can use this website for their needs. It is good for general knowledge.

1st Home page:

The first page is home page. The title of the website is Welcome to "World Population", it is easy to tell about the website. We used the world map for the background image to make it look more presentable.

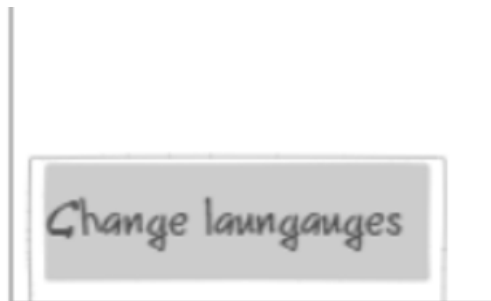

We also have a logo to define our website. Logo is important for every website.
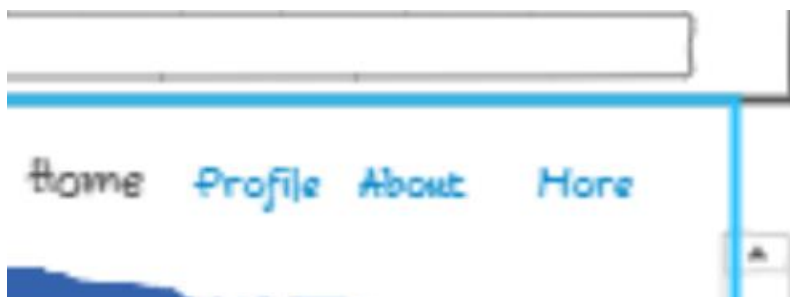

This is our homepage bar. It have 4 options (World, Countries, Continents and Region) whichever options you will click it will take you to another page and there will be more briefly explained about it.

There is a also option to change the language. For example if someone doesn't know English and they want use our website for research purposes, they can change it by clicking on the "Change Languages" and it will give them all the options for different languages.

Next Bar option we have is about the website. It have four options (Home, Profile, about, more)

The home page have this "Add (+)" button. This button is for more information about the website.

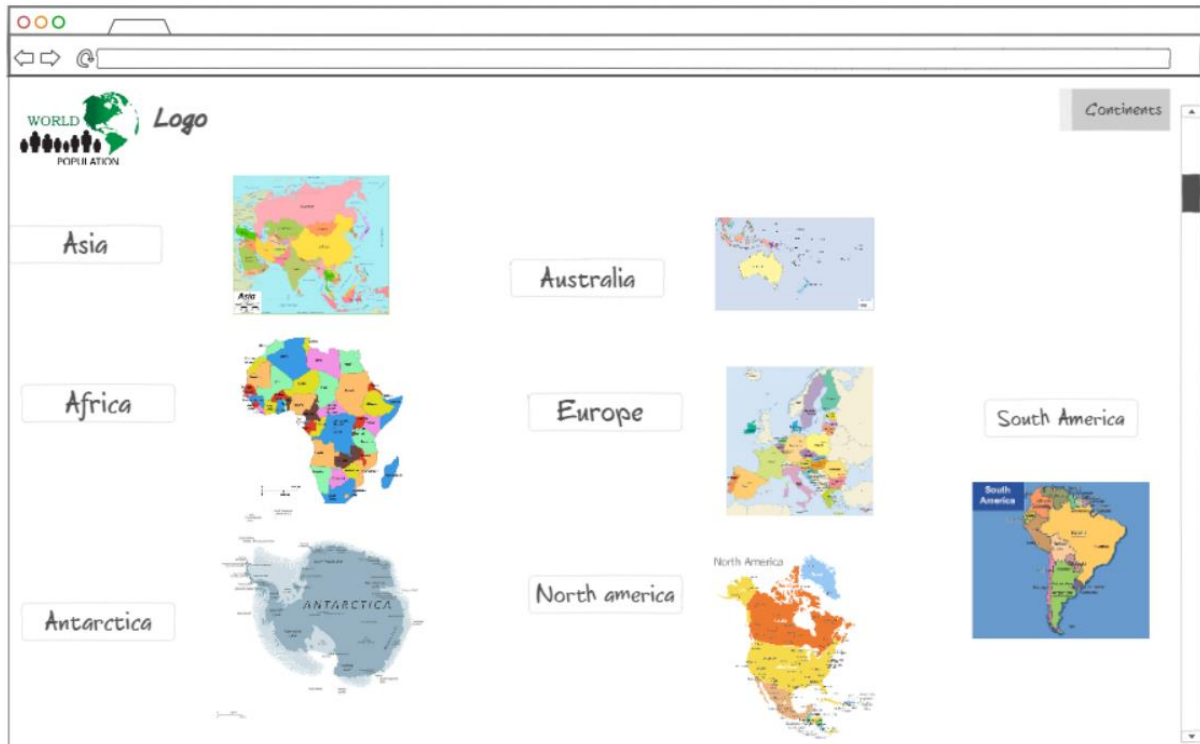

2nd Word Page:

When the user will click on the "world" option on the bar from home page it will take you from home page to this page. The second page is about the world map. As you can see below it have the world's map detailed with the name of the all countries in the world. It will help the user understand more.
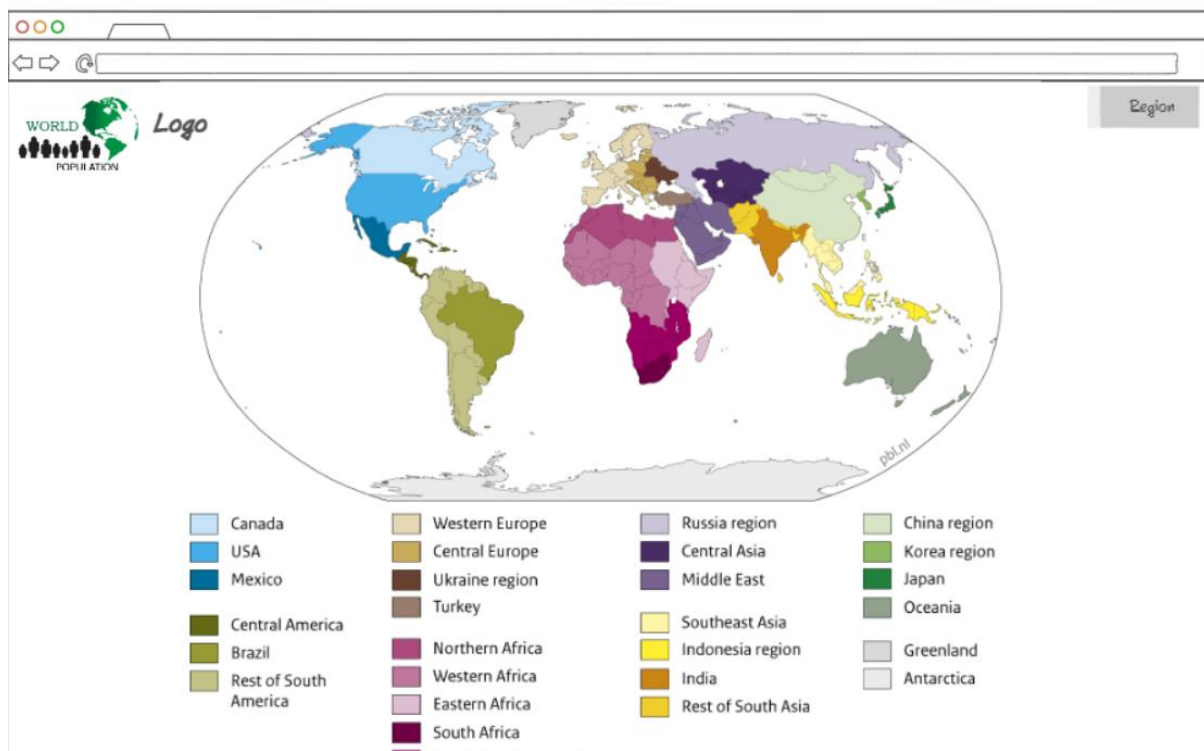

3rd Continent Page:

When the user will click on the "Continent" option on the bar from home page it will take you from home page to this page. This page show how many continents are there in the world with each picture of the continent. Each continent you will click it will lead to next page and explaining briefly about the continent and its population.

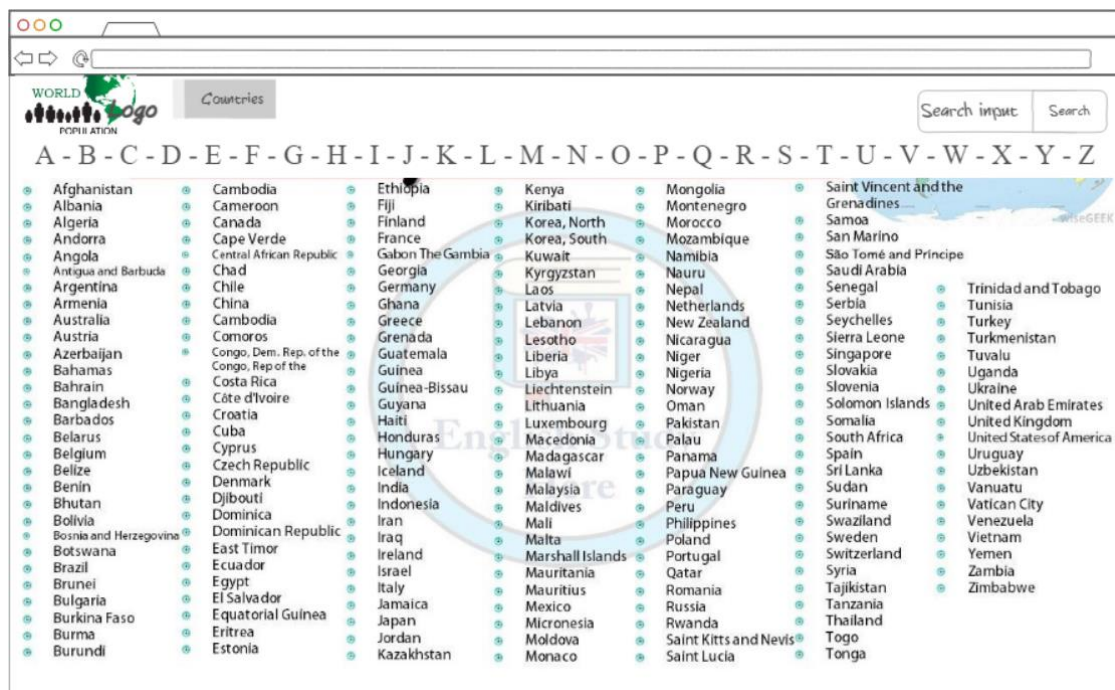

4th Region Page:

When the user will click on the "Region" option on the bar from home page it will take you from home page to this page. The forth page is about the region in the world. This page is coloured the every country with coloured and it also explain what every colour region is for.

5th Country Page:

When the user will click on the "Country" option on the bar from home page it will take you from home page to this page. There is also a search bar in which you can search the country with the first letter of the country. Any country user will click it will take it to another page and there will be more knowledge and explanation about that country

6th Profile page:

The 6th page is about the profile. If you want to create and account you can do it on this page. it will a lot more easy for the user to use this website again for the next time.

This bar is useful for the user. If it is highlighted with black writing it means you are on that page.

7th About us Page:

If you will click on "About" on the bar from above picture it will take the user on this "about us" page. On this page you user can contact us related anything to the website. We have useful social media links below. We also have given the contact number and email.
